Graphtec America and Wynit, Inc. Sign Distribution Agreement

Graphtec America Inc. has announced a strategic distribution partnership with Wynit Inc. for expanded channel fulfillment beginning December 2010. By partnering with Wynit, Graphtec America will be able to reach market segments that previously were not part of Graphtec's traditional distribution channel. Graphtec has made this strategic decision to take advantage of Wynit's expertise in product distribution, coast-to-coast warehousing, and extensive channel support.

Graphtec America, Inc. is a wholly owned subsidiary of Graphtec Corporation in Yokohama, Japan. Graphtec produces plotters, vinyl cutters, scanners, thermal transfer label printers, intelligent recording instruments, and data acquisition systems. Recognized as a technological leader, Graphtec has engineering, manufacturing, distribution, and service operations in Japan and the United States of America. In addition, Graphtec products are sold and serviced via business partners and distributors worldwide. For more information on Graphtec America products, please call (800)854-8385 or visit the web site at www.graphtecamerica.com

WYNIT, Inc. is a national distributor serving specialty markets in Consumer Electronics, Digital Imaging, and ID/Security with the core purpose of improving the competitive advantage of their dealer and supplier partners. Since 1987, WYNIT has distributed internationally branded products to reseller customers ranging from the largest national retailers and eTailers, to small, independent specialty stores. The company is known for competitive pricing, expert sales support, no minimum-order requirements, just-in-time inventory and fulfillment drop-ship services. WYNIT operates multiple warehouses to provide coast-to-coast coverage. For more information, call WYNIT Technical Graphics Division at 1-800-899-9648 or visit www.wynit.com/technicalgraphics.
